

SEMI-WEEKLY INTERIOR JOURNAL.

VOL. XVIII.

STANFORD, KY., TUESDAY, APRIL 29, 1890.

NO. 17

LEGISLATIVE DOINGS.

—The bill to establish a State inspector of banks and trust companies was very properly killed in the House.

—Both Houses have passed an act to amend an act authorizing the Lincoln county court to take stock in turnpike companies.

—The promoters of the Jellico boom are having numerous and sundry charters for railroads, all of which begin or end at Jellico, and which will never be built, presented to the legislature.

—The bill reducing the pay of assessors is believed by many assessors to have become a law, and much uneasiness has been caused in consequence. The fact is that the bill has never passed the House, though it did pass the Senate. It was withdrawn from the House and probably never will pass.

—The House bill to punish false timing at trotting contests passed the Senate. It imposes a fine not exceeding \$500, or imprisonment not exceeding six months, or both, on conviction in the circuit court, upon any official timer who shall willfully announce a false time at any race where the result constitutes a record.

—The Mason-Ford Company, the lessees of the penitentiary, sent a communication to the House asking for a release from their contract with the State for the convict labor, and asking that the State make some arrangements to receive the convicts. The communication was referred to a committee of five, with directions to look into the matter and report at any time. The company presents many good and sufficient reasons for wishing a release. They have been hampered and harassed out of all sense and reason.

—The Louisville Post prints a miserable caricature of Col. Silas Adams, of Casey, who has earned the sobriquet of the Silent Man. A lawyer by profession he is a man of ability, and it was expected that he would take an active hand in shaping legislation, but so far he has contented himself with simply recording his judgment. The journal so far fails to show that he has either made or seconded a motion or offered a single resolution neither has he spoken to any question that has been before the House. This would not be remarkable were it not for the fact that he is fully qualified to speak. Despite his silence he has made a useful member. He watches closely the proceedings and is always ready to vote. If every one had wasted as little time the legislature would long since have finished its labors.

A meeting of all the industrial companies, railroad men and persons who have mineral or other lands to develop or sell, will be held in Frankfort on Friday, May 2d, at 10 o'clock A. M., for the purpose of effecting an organization, discussing the prospects and getting it under way as speedily as possible. The scheme under consideration is to load a train of not less than 15 cars with the mineral products, coal, hard and other woods of Eastern Kentucky—in point of fact a complete exhibition of the resources of the State—in which all the industrial companies shall be represented and take this train on a tour through the North and East, ending finally at Chicago, where it is designed to make a permanent display. The train will carry a number of prominent gentlemen, who will make addresses at various stopping points, on the advantages of Kentucky. Gov. Buckner has already expressed a willingness to take part in the tour.

"W-when I was a b-b-boy," old stuttering, lying John Stutty used to say, "I read the st-st-story of G-G-George Washington and the l-l-little b-b-b-hatchet, and I l-l-liked it so well that I t-th-thought I'd p-p-play it on my f-f-father. So I w-w-went out and c-chopped d-d-down an apple t-t-t-tree t-th-that h-h-d taken lots of p-p-pains with. And when he c-c-came home and asked about it I said: 'c-c-come t-t-tell a l-l-lie, father; I d-d-did it w-with my ax,' and he g-g-gave me such a d-d-d-l-l-lamin' that I h-h-haven't t-told the t-truth since."—Cincinnati Times.

"Why don't you run a paper like that?" a grocery merchant in a country town said to his editor, throwing out a Chicago daily. "For the same reason that you don't run a grocery like that," the editor replied, turning to an advertisement of a Chicago house showing a 12-story building. The grocer looked attentively at the picture for a moment and then said: "I never looked at it in that way before."

The man who blows out the gas has a rival. He recently stopped over night at a Michigan hotel and the smell of burning cloth prompted a search for him. After rapping up several guests this man finally peered out of the darkness of his room and confessed that he had tied a towel around the electric lights and it had scorched it. "I tried to blow it out," he said, "but it wouldn't go out."

We Can and Do

Guarantee Dr. Acker's Blood Elixir, for it has been fully demonstrated to the people of this country that it is superior to all other preparations for blood diseases. It is a positive cure for syphilitic poisoning, ulcers, eruptions and pimples. It purifies the whole system and thoroughly builds up the constitution. A. R. Penny.

HON. R. C. WARREN.

The Press Is Still Sounding His Praises.

The INTERIOR JOURNAL has suggested the Hon. R. C. Warren for State Auditor. It is a good selection and will meet with general approval wherever Mr. Warren is known.—Liberty Press.

The Stanford JOURNAL submits the name of Mr. R. C. Warren for auditor. Mr. Warren is a capable gentleman, a thorough democrat and would make an excellent officer.—Inter-State News.

The name of the talented representative from Lincoln county—Hon. R. C. Warren—is being freely discussed in connection with the race for auditor. He is in the prime of life, able and full of energy, and if he enters the contest will be a very formidable candidate. He is being warmly urged to enter the race.—Carlisle Mercury.

Judge M. J. Durham having withdrawn from the race for auditor, the Stanford INTERIOR JOURNAL presents the name of Hon. R. C. Warren, the present representative from Lincoln county, for that important position. Judging from the high esteem in which he is held by his neighbors, we think he would make an excellent auditor.—Columbia Spectator.

Hon. R. C. Warren, member of the legislature from Lincoln county, is being frequently mentioned as a probable candidate for auditor of the State. He enjoys the reputation of being a gentleman of integrity and ability, and is held in high esteem by all who know him. If he should conclude to enter the race, he would make things lively for his opponents.—Hopkinsville New Era.

Hon. R. C. Warren, member of the House of Representatives from Lincoln county, is being prominently mentioned as a candidate for auditor of State. Mr. Warren is a man of big brain and honest principles. He is fully abreast with the times in every respect, and should be able to make the race, his opponents will hear from him all along the line. Mr. Warren is a tall, commanding and attractive gentleman, one of the kind born for leadership, and he makes friends by the score wherever he goes.—Louisville Times.

It must be gratifying alike to Hon. Richard Warren and the INTERIOR JOURNAL to witness the unanimity with which the State press seconds the latter's nomination of the former for State auditor. Those unacquainted with the gentleman whose character and ability so easily fit him for the office, have only to refer to his endorsement for a substantiation of all he claims, and like the signature in the southeast corner of a bank check, the INTERIOR JOURNAL is sure to make good on demand all that it endorses and more. Here's to Mr. Warren.—Richmond Register.

DEATHS DOINGS.

—Andrew Campbell, the inventor of the "Campbell Press," so widely known throughout the United States, died of heart disease at his residence in Brooklyn, N. Y., a few days ago, aged 69 years.

—Dr. J. G. Moore lost by death an infant child last Thursday night. This is the second child Dr. Moore has lost within the last two months.—Jellico News. Much sympathy is felt here for the couple who are passing so terribly under the rod.

—Mrs. Thurey Ready, sister of Moses Collier, Esq., died at the residence of her brother, this county, on the 23d, in the 78th year of her age. The deceased had been a sufferer for some years, and confined to her bed for nearly two months. She leaves three grand children—her husband and two children preceding her to the grave.—Central Record.

—Thomas M. Jones, of Vineland, Kas., died on the 15th inst., after an illness of two weeks, in full assurance that death was only a stepping-stone to a place prepared with Artistic Hands, for one entitled to a crown. He was one of the pioneers of Kansas and moved from Casey county about 30 years ago, and was a pillar in the Methodist Church in Western Kansas. He leaves a wife and a large family of children, all of whom are grown and well to do. He was an uncle of Rev. T. J. Godbey and the writer, C. M. Jones.

It is astonishing what a number of stamp collectors there are in the world. It is a passion which did not come into vogue until 1861, but since that year it has spread everywhere. Twenty-five years ago the divers stamps to be obtained did not exceed 300. Nowadays some albums contain at least 3,000. In the Berlin museum there are 4,500 specimens, so it is said, of which 2,460 are European and 1,147 from America.—Paris Letter.

—May 1 is the day set by the various labor organizations to strike for an 8-hour day.

A Duty to Yourself.

It is surprising that people will use a common, ordinary pill when they can secure a valuable English one for the same money. Dr. Acker's English pills are a positive cure for sick headache and all liver troubles. They are small, sweet, easily taken and do not gripe. For sale by A. R. Penny.

Can't Sleep Nights

Is the complaint of thousands suffering from asthma, consumption, coughs, etc. Did you ever try Dr. Acker's English Remedy? It's the best preparation known for all lung troubles. Sold on a positive guarantee at 25c and 50c by A. R. Penny.

MATRIMONIAL MATTERS.

—Hon. John C. Draddy, representative from Newport, will take to himself a wife to-day in the person of Miss Adella Gildehaus, at Milldale.

—Bob Burdette thinks it would save a great deal of embarrassment to clergymen and add to their revenues if they were to charge a fixed rate for marriages, say five dollars, for the first offense, \$10 for the second, \$20 for the third, imprisonment for life for the fourth and so on.

—In New York last year 1,434 husbands procured divorces from their wives on the ground of drunkenness. During the same year 12,432 wives procured divorces from their husbands on the same charge. This seems to be wrong some way. It is not a fair division. The noble husband has no show.

—The widow of the late J. C. Ayer, who made millions out of patent medicines, has bought her a prince for a husband. She is in Paris and will wed Prince Dolgorenkie, who is cousin of a widow of a widow of the murdered Czar. Arrangements are being made to celebrate the wedding with great splendor.

FARM AND TRADE ITEMS.

—WANTED.—100,000 pounds of wool. A. T. Nunneley, Stanford.

—The Lexington races begin next Tuesday with a big programme.

—I have two yoke heavy, well broke work cattle for sale. J. M. Reid.

—Burns & Helm sold to Johnson, of Boyle, 16 head fat cattle at 3 cts.

—P. W. Green sold to a Cincinnati party a 5-year-old harness mare for \$200.

—John Anderson bought of Hays, of Rockcastle, a pair of mare mules for \$250.

—C. T. Sandidge bought at the Lexington sales a 4-year-old roadster gelding for \$300.

—J. S. Hocker bought of Robert McAlister a harness mare by Messenger Breeze for \$250.

—P. P. Nunneley has purchased about 200 hogs at an average of \$3.60 per cwt., and will ship them to Cincinnati Saturday.

—H. D. Coyner, of Boyle, sold to J. D. Kuffner, of Wayne, between 800 and 1,000 bushels of wheat at 80c per bushel.—Record.

—J. E. Farris' Mollie Mounts has dropped a beautiful bay horse colt by On Time, which makes it a full brother of Gold King, recently sold for \$1,000.

—James George sold 15 head of sheep to Burns & Helm, of Lincoln, for \$68.50. He bought a 2-year-old jennet of Wm. Price for \$25. He sold 20 head of cattle at Lancaster at 23 cts.—Someret Reporter.

—Farmers in the vicinity of Atchison, Kansas, report that a sort of wire worm is doing great damage to the wheat. The worm is about an inch long and the thickness of fine wire. Wherever it works the wheat soon withers.

—The spring race meeting at Nashville began Saturday. The Two Thousand Stakes, which was contested by three prominent Derby candidates, was won by the Chicago Stable's Robespierre. Prince Fonso second and Blarneystone third.

—At the annual sale at Belle Meade 61 yearlings, the get of Luke Blackburn, Iroquois, Bramble, Great Tom and Enquirer, sold the first day at an average of \$1,055.16; 20 brood mares for an average of \$885.71. The second day Iroquois and Luke Blackburn were bought in by Gen. Jackson at \$34,000 and \$20,000 respectively, and 91 brood mares sold for an average of \$814. The total sum realized by the sale is \$199,075.

—The King, C. T. Sandidge's splendid 3-year-old stallion, by Silver King, died Friday of congestion of the lungs. Mr. Sandidge had recently purchased him from his brother, Will, paying \$1,000. Several times since he has refused \$1,250 satisfied, as everybody else who saw the magnificent creature, that he had a big future. The King had already served 10 mares at \$20 and Mr. S. could have booked 50 easily for him. A couple of veterinary surgeons made a post mortem examination and found that his lungs had turned as black as charcoal. He did not lie down at all during his sickness and finally fell as if he was shot and died in an instant.

The Boston Herald produces the following problem which is worth considering. Assuming that a community of 100,000 workers can produce in a day, by labor of 10 hours, wealth to the value of \$300,000, then if their labor is cut down to 8 hours a day, they must either work harder or more skillfully in the shorter period, or there will be one-fifth less wealth to divide among those interested in its production. There is no way of getting over this. At the present time the wages earned are paid, and the capitalist receives his returns from the gross sum of production. If this sum is cut down in any way, a loss is inevitable either on the side of the capitalist or wage earner, or on both sides. While \$5 divided among five men will give each \$1 apiece, there is no process of arithmetic by which \$4 divided among five men will produce the same result.

CHURCH AFFAIRS.

—Eld. Lucas' meeting at Williamsburg closed with 27 additions.

—There are 3,256 negro church members in Lexington and they own \$156,200 worth of church property.

—Rev. A. Harrison, a leading minister of Knoxville, Tenn., was suspended by his Presbytery on a charge of contumacy.

—Rev. J. L. McKee preached the dedicatory sermon at the Chester street Presbyterian church, Middlesboro, last Sunday.

—The Methodist revival held at Ver, sailles by Rev. G. H. Means, of Nicholasville, resulted in 8 additions, after a two weeks' effort.

—The 62d annual Diocesan Council of the Episcopal Church will convene in Versailles on May 6th and continue in session three days.

—A Biblical student computes the population of the infernal regions at 120,000,000,000. There is such a thing as running statistics into the ground and this appears to be a case.—Chicago Journal.

—A negro woman at Atlanta stole a dress in which to be baptized. She wanted to look especially stunning on the occasion and no dress of her own could fill the bill.

—As soon as the Middlesboro Christian church is completed, which will be soon, Evangelist Joseph Frank, of Lancaster, will hold a two weeks' meeting of special revival services.

—The difference between a prohibitionist and an abstainer or temperate man is that the former sometimes gets drunk; the latter never does, but always practices what he preaches.—Someret Republican.

—Out of 170 Presbyteries that have voted on the subject of the revision of the Confession of Faith of the Presbyterian Church, 110 favor revision, 55 oppose it and 5 decline to take a stand one way or the other.

—Rev. Boyd, pastor of the Presbyterian church at Poland, O., refused to receive Miss Rebie Pence into the church because she declined to say she would not give up dancing and card playing, whereupon 62 members signed a petition asking him to resign.

—Mr. Lewis E. Francis, now dubbed the "St. Peter of the South," has returned from his visit to Col. Schweinfurth's "Heaven" near Rockford, Ill. He was perfectly carried away with the angels and the other things he saw in "Heaven."—Richmond Register.

—Mr. James G. Givens, of Louisville president of the Barbourville Land and Improvement Company, presented Mrs. E. Boyd Tuggle with a handsome carpet for the Presbyterian church at this place. The church hopes he may be greatly rewarded.—News.

—Rev. George Hunt, of Lexington, has announced himself as a candidate for superintendent of public instruction. He is well known throughout central and southern Kentucky as a prominent educator and is in every way thoroughly qualified to fill the office.—Falmouth Democrat.

—The Lancaster Record has this about a valued former correspondent of this paper: "Robert R. West was ordained to the gospel ministry, in Washington City the 23d inst. He was born and reared in this county and is the son of Mr. John K. West. He has been called to the pastorate of a suburban church in the above named city.

—Next Sunday all the Christian churches will make their annual offering for General Home Missions. Last year's receipts were \$32,510.35. There were employed in 21 States, 52 men who labored 10,306 days; preached 4,465 sermons; had 1,753 church additions; visited 62 new and unorganized places and established 24 new churches.

—The Stanford INTERIOR JOURNAL does not believe in that sort of religion which makes its possessor's face look like a macadamized road to a grave-yard, nor does the Capital. The most religious man should also be the most cheerful. We are willing to guarantee that the two preachers whom it mentions as having gone to a circus are men who do great good and are beloved of men.—Frankfort Capital.

—On July 20, 1790, Jesse Lee, the apostle of Methodism in the East, preached under the old elm, on Boston common, the first Wesleyan sermon ever heard in Massachusetts. The anniversary of that event is to be celebrated in an elaborate manner in October, when the great and flourishing church which has, from the seed sown on that day, 100 years ago, grown to be the second in the commonwealth, will commemorate the event.

—The get of Enquirer have won \$457,354 since 1876.

The Dream of Enthusiasm Crystallized into Stubborn and Indisputable Facts.

Electric Street Car Lines, Water Works, Oil Refinery, Glass Factory and Planing Mill, all to be Erected and in Operation this Summer, and work will begin on these Enterprises at once.

Someret is located on the C. S. R. R. and is a progressive and prosperous town of 3,500. Two Banks, showing a capital stock of \$180,000, splendid Public Schools and other enterprises and institutions make her future exceedingly bright. H. Haerlin, the Great landscape artist, is about through the survey for a route of a street railway through the city, which will be operated either by steam or electricity. A complete system of water works, with reservoir, on Crescent Hill will be immediately constructed. The minerals in Pulaski county are noted for their purity and inexhaustible supply. The superior quality of sand and several oil wells are attracting the attention of wide-awake men and it will not be long till a glass factory and an oil refinery will be put into operation. The railroad facilities of Somerset are first-class. Eight passenger trains pass daily and being half way between Cincinnati and Chattanooga, it is the business point of the head officials of the Railroad Company, who will co-operate in the further development of the wonderful natural resources the grand county of Pulaski possesses. The Cincinnati, Alabama & Atlantic R. R. is now an assured fact, and passing as it will through Somerset, adds another to her many advantages.

W. P. WALTON.

HARPER'S WEEKLY, in an article on the result in Rhode Island, which has just gone democratic and taken herself out of the republican column, says that the cry of high tariff as assuring constant employment, high wages and protection to American labor is losing charm. The more that question is discussed, the more it is tested by experience, the less certain is the high tariff of popular approval. If, as the friends of protection assert, it is really the dominant question, the republican defeat in Rhode Island, with the national government in control of protectionists, and the high tariff just introduced in Congress, means that the protection policy is losing favor. That is as sound and logical an inference as any other of the result in Rhode Island.

SPEAKER REED, the autocrat of the House of Representatives, embraced the occasion in responding to the toast "The Republican Party" at the banquet of the American Republican Club at Pittsburg, to get off the usual vilification of the South and to wave the bloody shirt with a vengeance. He advocated the placing of congressional elections in Federal hands so that the republicans, as he said, can "do our own registration, our own counting and our own certification." We need the republican vote of the South to offset the democratic ignorance which votes in New York and other large cities." Reed is to-day the most obnoxious figure before the American people and fully merits the execration he is receiving.

THE republican members of the Legislature, who are mainly from the mountain counties, where the idiot claim business has grown into a great and thriving industry, resorted to every means to prevent the passage of the bill in the House to require the counties to pay \$20 of the \$75 that the State is taxed for each idiot, but they failed, though the bill received only a bare majority. It is hoped that the Senate will pass the bill at once and thereby stop a big leak to the treasury, as the counties will be a little more particular in the matter when part of the expense is paid by them. According to the auditor's report there were 1,400 idiots on the charge of the State last year at a cost of \$105,000.

THE republican party is the party of promises, but the people have learned that they only make them to be broken. For instance, among many other things, their last national platform promised that postage should be reduced to one cent, but it has not been done, neither will it be. The postmaster general advises against it and that has seemed to settle the matter. There is no crying popular demand for such a reduction, but a promise should be as good as bond and security, and the party that made so many specious promises ought to fulfill them, or be convicted at the bar of public opinion of obtaining power under false pretenses.

THE Louisiana Lottery, whose charter is shortly to expire, is making strenuous efforts to prolong its life. Failing to get a charter in Dakota, it now offers the State of Louisiana \$12,500,000 for a renewal, the money to be divided into three lots, one to be devoted to educational purposes, another to charities and another to the work of repairing the Mississippi levees. A concern that is able to offer such inducements for the right to continue to fleece suckers must have a gold mine, to be sure.

"GATH" has had a talk with Superintendent of the Census Porter, who tells him that his department estimates that the coming enumeration will show 64,442,807 souls in the U. S. He thinks that Virginia will show a decrease of population of 112,000, a bad showing, if true, for the Mother of States. Kentucky is put down with an increase of 350,000. New York is expected to show the greatest increase—1,200,000. The estimated cost of taking the census and printing the reports is over \$10,000,000.

THE G. A. R. Meeting at Louisville elected Capt. Mike Minton commander over Gen. E. H. Hobson by a vote of 96 to 91. The latter would have been elected but for the failure of many posts to attend. Stanford and vicinity would have rejoiced in the general's election, since he did her so excellent a turn in a certain appointment. Frankfort was chosen as the place of meeting next year.

BRO. RUCKER wants the Press Association to meet at Somerset next time and calls upon the business men of the place to consider the matter and extend an invitation. If the good brother will not interdict the use of wines at the banquet or prohibit the taking of a cock-tail as an appetizer, we will promise to assist him all we can in securing the meeting. Here's looking at you, old prohib!

A PRETTY little milliner from Appleton, Wis., put \$700 in her plump and palpitating bosom and went to Chicago to lay in her spring stock. She fell asleep while enroute and when she awoke the money was gone. Some care-reckless thief had gently slipped his hand into the snug retreat and taken it.

REX, the King of the New Orleans Carnival, has favored us with a royal edict, selecting us from among his loyal subjects to witness the coronation of his Cousin Rex II at the capital city of Ogden, Utah, which will be attended with great pomp and ceremony, the festivities lasting for five days. He also sends us a confidential communication, asking us to submit the names of ladies of this section from which His Majesty can select for Her Gracious Majesty, the Queen, Maids of Honor, whose social standing and strikingly handsome appearance will lend character and beauty to her Royal Court. Those of our beautiful young ladies who wish to have their names submitted, will, therefore, please present themselves at our office at 10 o'clock, May 1.

FORT WAYNE, IND., forbids the sale of any article on Sunday, so a cigar man rigged up a wooden Indian sign so that when a nickel was dropped into a slot a cigar would be promptly handed out. The thing worked well for awhile and the man was coining money till the authorities got onto his snap, when he was arrested and fined \$50-odd dollars. This may be all right, but the men who made the Indian break the law ought to suffer along with its owner. It would have stood silently and immovably till doomsday had not its machinery been set in motion by the nickels, which the men were not bound to put in it. We believe in punishing both the seller and buyer of articles, whose sale is forbidden by law, if not to the same degree at least to a measurable extent.

THE earthquake which occurred in California and Oregon Thursday, has increased the terror of the "doom seers" as those people are called, who believe in the prophecy of Mrs. Woodruff. They think she was only mistaken a few days in the date of the upheaval, she has foretold, and that the shock of Thursday was the beginning of the end of the destruction of all the cities on the Golden Coast. Many are therefore leaving San Francisco and Oakland never to return. Their room may be as good as their company, but the fool-killer ought to get in his work as they fly and thus put a stop to such a breed of loons.

THIS is the week set for the legal execution of the first man by electricity. It is to occur in the Albany, N. Y. penitentiary, and Wm. Kemmler, the murderer of a woman, is to be the subject. Everything is in readiness and Kemmler is also, if his story is to be believed. He has professed religion and claims to be both anxious and willing to pay the penalty of his deed, which is death here and a glorious crown hereafter he thinks. According to the law the condemned man is kept in ignorance of the hour of his doom, though he is told that his execution will occur within a given seven days. When the sheriff appears in his cell, he will then know that his time has come.

JUDGE BOREING advocated a service pension in his speech before the G. A. R. at Louisville. He thinks that the soldiers who, at the risk of their lives, protected the homes and treasury of this country, should now be paid for it, irrespective of whether they were wounded or not, and whatever the cost may be, every soldier who followed the stars and stripes during the sixties should be pensioned. We are surprised that so sensible man on other subjects should be so utterly daft on the question of pensions.

THE time for holding the convention to nominate a candidate for judge in this superior court district has been fixed for June 11th and the place, Frankfort. Delegates are to be named in county conventions May 31, at the ratio of one to every 200 votes or fraction over 100 cast for Cleveland. If, however, there should be but one candidate announced by May 28th, the State Central Committee shall meet and declare that candidate the nominee without the formality of a convention.

A JURY in Louisville found a verdict of \$1,500 damages against the Truth on a suit for \$30,000 brought by Wm. D. Reed for the publication of a paragraph, which Mr. Reed thought reflected on his integrity. The verdict created much surprise as the Truth had disavowed any malicious intent or desire to injure Mr. Reed. Bro. Ridgely will no doubt secure a new trial and a reversal, but if he does not, he can draw on us for the amount, which is to heal Mr. Reed's lacerated feelings.

TWO one or two hangings that Bourbon has had recently seems to have produced a most salutary effect on the law-breakers in that county, for the grand jury after a three-days' session came in to court and reported that after full investigation it had no indictments to return. This is as remarkable as it is gratifying, and we hope many more counties will be able to send out so good a report.

THERE is some devilment on foot. A call has been issued for a meeting May 7, in Washington, of the executive committee of the republican national committee. Kentucky will not be represented, owing to factional fights.

THE prohibition fight is on again in Hardin and both of the local papers are filled with the rot that such elections produce.

THE Senate has agreed to the House resolution fixing May 12 as the day for the final adjournment of the legislature. For a body, which started out so well, the General Assembly of '89 and '90 has proved itself no better than its predecessors and a general "thank God" will go up from the tax-payers, when it pulls up stakes and hies itself away.

THE Merry Bachelors' Hop Club reorganized Saturday by the election of C. C. Carson president, E. C. Walton Secretary and G. L. Penny treasurer, when the preliminaries of their semi-annual hop were arranged. It is to occur about June 4th and will be the most elaborate affair they have yet undertaken, which is saying a good deal.

OUR next issue will be a double one and devoted more especially to horse matters, though our other patrons will have no cause to be slighted. We shall commence in it the publication of the charming serial "Isabel, or from Shop to Mansion," in addition to a full quota of miscellaneous and general and local news matter. Now is the time to subscribe.

FISH STORY.—Mr. G. W. Tribble, who is an Isaac Walton, caught the largest fish that has been taken from the waters of Hanging Fork for some time. It was of the cat variety and weighed 11 pounds, was 3 feet long and measured 19 inches around. Mr. Tribble, who is 80, had considerable trouble in pulling him out, but finally succeeded and is now very proud of his catch.

NEXT Saturday is the day fixed by law for the examination of persons who propose to be candidates for superintendent of common schools. It is to be made before the county clerk, judge and one other person selected by them and no person will be entitled to run unless he secures a first-class certificate as to character qualifications, &c. On the required conditions, including scholarship, a lady may be a candidate for eligibility to the office of county superintendent of common schools.

CAN this be our Walker, who always seemed to be as mild a mannered man as ever cut a throat or scuttled a ship? The Liberty Press says: "Mr. Walker Bell, charged with shooting with intent to kill Wm. Reed, was tried before Squire J. D. Owens, last Friday, and the jury returned a verdict of not guilty. Immediately afterwards Mr. Bell was arrested on a warrant sworn out by Wm. Reed, charging him with carrying concealed weapons. As the jury could not agree Mr. Bell was discharged; the case will probably come in again in the circuit court."

THE election to decide whether the Stanford and Turnersville precincts are willing to subscribe \$20,000 to the stock of the Cumberland Railroad, the money to be used in purchasing the right-of-way in this county, will occur next Saturday. Its opponents are actively engaged in attempting to make the colored voters believe that poll taxes will be raised to three dollars and the tax on their little property correspondingly increased. Not only is the former statement untrue, but the latter also. The small amount asked can be paid in the long time given with an increase of property tax so small that the average tax-payer would hardly know it unless told. The advantages that will accrue to the county by the building of this road are too numerous and too apparent to mention in detail. It will open up an entirely new territory with the finest timber and other resources, with Stanford the largest town till Gallatin, Tenn., is reached. This would naturally bring a great deal of trade here and largely enhance all property interests. The sum asked is so small and the returns insured so large that it seems hardly necessary to say more than simply to call attention to them. We have confidence in the good sense of the people and are sure they will by a good majority vote the subscription, which is not a bonus, but for which we are to receive stock, which in all probability will be worth even more than par.

AN ENGINE, three-horse power, six cone pulleys and other steam fixtures for sale. W. P. Walton.

THE millinery this season was never so varied and beautiful. Attend Courts & Wray's opening at the post-office store Thursday and Friday and see what a splendid stock they have.

ALL the miners in the Laurel district went to work yesterday, after a strike of a month, on a compromise of 3 cents a bushel the year around. We believe they had been getting 2.85 and wanted 3.

YESTERDAY was a royal spring day, although a little cool. The farmers must be getting in their work, judging from their almost complete absence from town. The streets were nearly deserted all day.

THE stockholders in the Knob Lick Turnpike will decide at their meeting Saturday whether or not they will build an iron bridge over Hanging Fork and numerous builders are expected to be here to see about it.

WE understand the Hubble people say they will not hold the election in their precinct on next Saturday. If they do not the railroad subscription is sure to carry by a large majority and they will have to help pay it too.

SOMERSET, fitted both by location and advantages to become a large city, has awakened to her importance, and enterprising men have undertaken to give her a chance. The first sale of lots will occur May 20 and 21, as will be seen by the advertisement on our first page.

THE estimated cost of the "cut off" pike is largely in excess of the appropriations and if it is built the merchants and other citizens will have to go down into their pockets pretty liberally. W. H. Miller is taking subscriptions and is meeting with fair success.

JAILED.—Wm. Plummer was lodged in jail here yesterday by W. A. Carson to serve out a sentence passed on him at Crab Orchard for carrying a concealed weapon. He was also fined \$5 for shooting in that town, which he has laid out in the jail there. Plummer seems to be a bad boss, being already under indictment for burglarizing Mr. Becker's store, at Ottenheim.

A BILL to authorize the payment of a claim of George H. Hocker against the State as a committee for a lunatic, was mentioned in the Courier-Journal, as "a claim for the benefit of George H. Hocker, a lunatic of Boyle county." As there is less ground for calling Mr. Hocker a lunatic than anybody, the mistake has caused considerable fun at that gentleman's expense. Mr. Hocker is the democratic candidate for assessor in his county and is going to get there in great shape.

—On Saturday last the New York City Morgue contained 22 unidentified corpses. What a world of sensation there is in that simple statement of fact!

—Yorkville, a village in Woodruff county, Ark., was blown away Sunday morning during a heavy wind and rain storm. Hundreds of cattle are reported killed, but as far as can be learned there was no loss of human life.

—The missing leg of the mutilated remains of Mrs. Mitterman, who was so foully murdered at Leavenworth, Kas., was found in the river there Sunday. Charles A. Benson, the supposed murderer, has not been captured.

—Editor Hawthorne, of the Florida Times-Union, publishes an open letter addressed to President Harrison, expressing his surprise and deep sense of injury at the nature of the president's letter to Attorney General Miller, regarding the absence of law and order among the people of Florida.

—At the unveiling of a monument of Gen. Robert E. Lee, at Richmond, Va., May 30, there will be quite a large delegation present from Kentucky and the South. The Louisville Legion has been sent a special invitation to be present on the occasion, and, as all expenses are to be paid by the Virginia Confederates, the Legion will likely accept.

—An evangelist named Yatman has for the past month been conducting a protracted meeting at Evansville with phenomenal success. There were over 300 conversions last Sunday. There is no place where Bro. Yatman will find a better field to work in the cause of the Lord than Evansville. Let him stay there all summer.—Owensboro Messenger.
